

Community Research & Development Committee (CRDC)

Our Goal: To Research and Develop new project ideas for the JLC.

Looking for New Project Ideas!

The Community Research & Development Committee (CRDC) is looking for ideas for new projects from our members. In an effort to create a pipeline of potential projects from year to year. We have officially begun to collect ideas for next year's (2004-2005) committee for projects to be considered for the 2005-2006 league year.

The timelines are typically tight and having your valuable ideas in the hands of the Project Development Coordinator at the time she takes over her position, will be a huge advantage.

Attached, please find a form to fill out with your idea. You can then submit the form via mail, email or fax.

Thank you for your input!

Ursula Cottone

Project Development Coordinator, CRDC 2003-2004

Note: Every idea will be reviewed and considered, but only 1- 3 new projects will be announced each year, so if your idea isn't chosen for the coming year, CRDC will keep it in mind for future years.
